Managements Notes

Adjusting for the one-off large trading contract in 2022 which accounts for 68% of the 2022 top line, our year on year sales grew by 20% in 2023 compared to 2022.

Our core business verticals including hosting and self-mining businesses witnessed stellar growth year on year with 119% and 480% growth respectively. The growth in these two verticals was achieved with various strategic partnerships with HNI customers, power supply companies and mining equipment manufacturers which will help us further fuel growth in coming years. Trading vertical dropped by 10% despite a difficult year for the industry at large.

Overall, our staggering growth across most business verticals including the newly established investment arm are poised for upward trajectory and is testament to our strong commitment to our shareholders when it comes to deliverance.

The net income grew 50% year on year aided by impressive revenue growth in hosting and self-mining along with strong performance from our investments in digital assets and associate investee companies.

In addition to strong financial performance, our major 2023 milestone includes Phoenix going from a privately held company to a listed group on Abu Dhabi Stock Exchange.

Note:

Phoenix Group Plc's preliminary results are subject to external audit and may be different from the Group's audited consolidated financial statements. The Group's audited consolidated financial statements are expected to be released no later than 30 March 2023.
